Certificate of Completion (March 2024)
- Web Developer Career Program
- Front End Course
- Back End Course
- Full Stack Course

Certificate of Completion (April 2024)
- Tester Essentials
- Intro to MySQL for MongoDB Developers
- Intro to PHP for JS Developers

Certificate of Completion (May 2024)
- Intro to Laravel

Skills Summary

Web Development Skills

Front End Web Development:
Git Basics, HTML, CSS, Bootstrap, Figma Mockups

Back End Development:
JavaScript, MySQL / MariaDB, MongoDB, Node.js, Express.js, PHP, Laravel, Composer, XAMPP, Postman, REST API

Full Stack Development:
MERN tech stack (MongoDB, Express.js, React.js, Node.js), DOM Manipulation, Component-Driven Development, API Integration with Fetch, Software Development Life Cycles (SDLCs)

Tester Essentials:
Unit Testing, Test-Driven Development (TDD), Test Suites (Mocha), Assertions (Chai), Backend Testing (Chai-Http), Frontend Testing (Selenium Web Driver)

Work Experience

September 2022 – September 2023
Courtyard by Marriott and Residence Inn Downtown Austin, Texas, United States
Line Cook
Optimized kitchen inventory and food safety, enhancing workflow efficiency, and contributed to banquet success and guest satisfaction through strategic menu planning and execution.

April 2022 – May 2022
Made Nice, Rockwell Drive, Makati City
Culinary Restaurant Intern
Assisted chef with food preparation and order processing, swiftly adapting to new procedures for efficient management of high workloads.

September 2017 – December 2019
Accuro Diagnostic Laboratory, Rosario, Pasig City
General Manager / Owner
Streamlined business operations and improved efficiency and quality, driving brand visibility and revenue growth through strategic initiatives.

Project Experience

Front-end Capstone: **Responsive Web Design**
https://devcodekl.github.io/capstone1-project/
Developed a responsive website with HTML5, CSS3, JavaScript, and Bootstrap for optimal user experience on different devices and screen sizes.

Back-end Capstone: **E-Commerce Management System**
http://ec2-3-23-95-145.us-east-2.compute.amazonaws.com/b5/products/active
Developed a system with Node.js, Express, and MongoDB, deployed on AWS EC2 instance. Conducted thorough testing of API endpoints and functionality using Postman.

Full-Stack Capstone: **E-Commerce Web App**
http://zuitt-bootcamp-prod-337-6638-lachica.s3-website.us-east-1.amazonaws.com/
Built an application using the MERN stack. Integrated a React.js frontend with a JavaScript backend API, enabling features like product browsing, cart management, and order processing. Hosted on AWS via Zuitt Git for reliable deployment and scalability.
